

VOCABULARY MANIPULATION: **HIGHLIGHTING BUTTONS**

~instructions for embellishing specific buttons on a page~

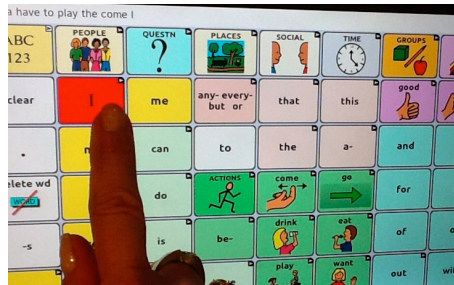

Highlighting buttons allows you to embellish buttons on the screen. This function may be useful for emphasizing specific vocabulary to the AAC User. Highlighting some buttons will enable the AAC User to more easily focus on specific vocabulary being presented. A button can be temporarily highlighted and modified back to its original style, when appropriate.

Examples:

Modifying button color

Button highlights when selected

Most manufacturers give instructions on how to highlight buttons. Check device Manual or User's Guide.
