

# 5 Ways to Use ChatEditor in the Classroom

## Part 2

ChatEditor is a free download available for PCs. There are many ways to use ChatEditor, but one of the most useful is to use it on a SMART Board (or other similar technology) as a communication system. Here are a few ideas of ways you can use ChatEditor in your classroom:

# 1

### Use ChatEditor to create materials for your classroom.

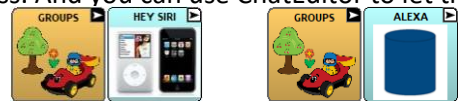

By using Capture mode, you can create a number of different materials for your classroom. You can label different parts of the classroom with core words. You can create books to read. You can create labels for words in books. You can create flashcards or dice...Your imagination is the limit when it comes to using ChatEditor to create materials.

# 2

### Use ChatEditor to give commands to Siri and Alexa!

There are many ways to use voice assistants, like Siri and Alexa, in the classroom. Siri or Alexa can set a timer or alarm to help keep your class on schedule. Siri or Alexa can get the current weather and forecast during calendar time. Siri or Alexa can play music for the class during a break. There are MANY more tasks that Siri or Alexa can perform to help your class. And you can use ChatEditor to let the students give the commands to Siri or Alexa!

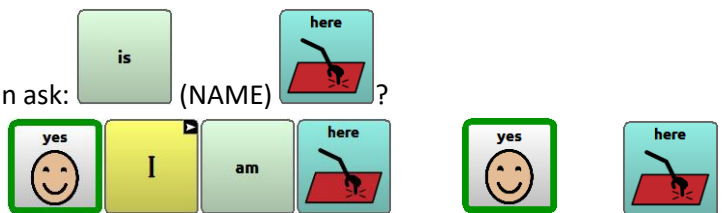

# 3

### Use ChatEditor during attendance!

When taking attendance, the teacher can ask: is (NAME) here?

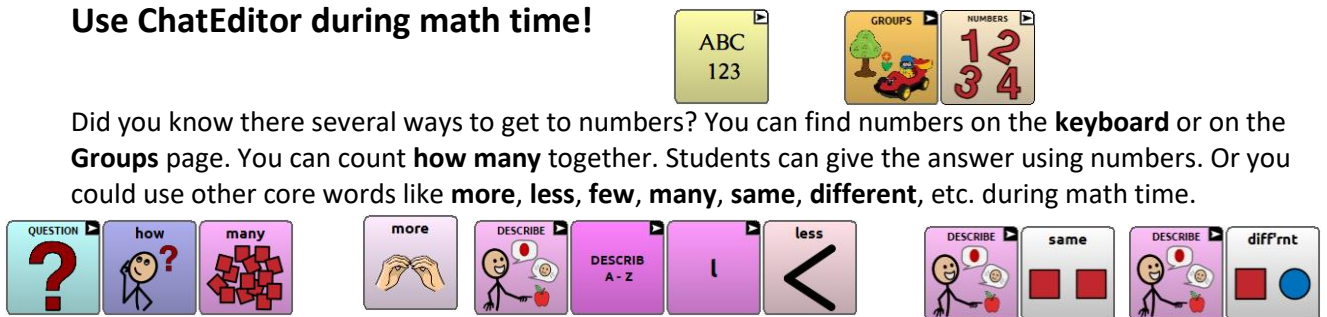

Students can respond in multiple ways:

# 4

### Use ChatEditor during math time!

Did you know there several ways to get to numbers? You can find numbers on the **keyboard** or on the **Groups** page. You can count **how many** together. Students can give the answer using numbers. Or you could use other core words like **more, less, few, many, same, different**, etc. during math time.

# 5

### Teach phonics skills using the phonic keyboards in ChatEditor!

Literacy is an important skill for all students! Help students to learn sound-letter correspondence by using the Phonics keyboard. You can also target skills like blending sounds and segmenting sounds/words to help improve literacy skills. Also, there are pages for both short vowel and long vowel sounds!

Phonics with Short Vowels

Phonics with Long Vowels
