TouchChat is available from iTunes for \$149.99

iShare

With thousands of teachers, clinicians and parents creating pages for AAC devices all over the world, why not share page sets with one another? iShare allows this, and it also enables you to store your personal page sets in a private, online folder.

After your free year, a six-month subscription to iShare is available for \$59.99 as an in-App purchase from the TouchChat application.

ChatWrap Amp Case for iPad, iPad Air and iPad Mini

Protect your iPad!

ChatWrap amp case by Silver Kite creates a usable and protective solution for individuals using iPad, iPad Air or iPad mini as an AAC option. The rubber boot and shell provide the protection while the Bluetooth amp delivers high quality speech output for the user. There are two amps to choose from, our handle amp provides optimal portability, while the hinged amp offers flexible positioning when used as a stand. If color is a priority then choose our color kit giving you five additional colors.

Compatibility:

- Apple iPad Air
- Apple iPad with Retina display/iPad 4th generation
- Apple iPad 3
- Apple iPad mini
- Apple iPad 2 (Some connectivity features not available)
- NOT COMPATIBLE with 1st generation iPad
